Selected project experience:

Hamilton Road, Glasgow

Client: West of Scotland HA, 2012

Contract Value: £2.5m

28 highly energy efficient newbuild flats for older and ambulant disabled residents. The project utilises off-site manufacture and high levels of insulation to achieve consistent quality detailing, good energy efficiency and airtightness.

Fernhill Regeneration, Glasgow (*)

Client: West of Scotland HA & South Lanarkshire Council, 2007

Masterplan for the regeneration of Fernhill, looking at the re-provisioning of 300 new homes, phasing for the redevelopment of the whole area, as well as new leisure and commercial facilities. Designed to make best use of the site's main road frontage and good infrastructure and transport links.

Fernhill Phase 1, Glasgow (*)

Client: West of Scotland Housing Association, 2009

Contract Value: £9m

62 newbuild energy efficient homes, providing a mix of cottage flats, semis and small terraces, as the 1st phase of re-provisioning for the regeneration of the Fernhill area.

Fernhill Phase 2, Glasgow (*)

Client: West of Scotland Housing Association, 2011

Contract Value: £8m

96 newbuild highly energy efficient homes, using off-site manufacture for external walls, floor and roof cassettes to ensure high levels of airtightness and construction standards. The project provides a mix of cottage flats, semi-detached, detached and terraced houses as well as amenity flats with lift access.

Fernhill Phase 3, Glasgow (*)

Client: South Lanarkshire Council, 2011

Contract Value: £2.5m

18 newbuild highly energy efficient homes, using off-site manufacture for external walls, floor and roof cassettes. The project provides a mix of cottage flats and semi-detached houses as well as newbuild shop units.

Turriff Street, Glasgow (*)

Client: West of Scotland Housing Association, 2010

Contract Value: £2.5m

24 newbuild flats on a difficult gap site adjacent to the main west coast railway line and M74 extension flyover. Ground floor provides wheelchair accessible and amenity flats, with family accommodation to upper floors, each incorporating whole house mechanical ventilation with heat recovery (MVHR) and south-facing balconies. On completion, the project achieved an Ecohomes 'Very Good' rating.

Macbeth Gardens Phase 1, Kilmarnock (*)

Client: Atrium Homes, 2007

Contract Value: £2.6m

28 new homes on a brownfield site, providing a mix of 2 and 3 bedroom family homes with one fully wheelchair accessible bungalow.

Macbeth Gardens Phase 2, Kilmarnock (*)

Client: Atrium Homes, 2010

Contract Value: £0.8m

8 energy efficient homes for older and ambulant disabled residents.

Stopover, Glasgow (*)

Client: West of Scotland Housing Association and Quarriers Homes, 2006

Contract Value: £1.5m

Short stay hostel accommodation providing 14 ensuite bedsits integrated with staff sleepover, communal living/ dining facilities, kitchen and ancillary office and training rooms. Communal gas boilers provide underfloor heating and solar panels hot water throughout.

Crathie Drive, Glasgow (*)

Client: Partick Housing Association, 2006

Contract Value: £0.9m

Infill project providing 8 'eco' flats designed to reduce CO2 emissions. The 4 storey timber kit is insulated using sheep's wool and uses recycled and low-toxin

materials. Communal gas boilers provide underfloor heating and solar panels hot water to all flats.

Vere Road, Kirkmuirhill (*)

Client: West of Scotland Housing Association, 2004

Contract Value: £2.5m

33 energy-efficient homes in a rural location, providing a mix of family housing, small units for older residents and residential care units.

Ochilview, Fife (*)

Client: Fife Housing Association, 2002

Contract Value: £0.8m

Eco-refurbishment of 18 flats incorporating sunspaces, solar drying cabinets, bicycle storage and high levels of insulation. Geothermal heating and hot water system.

(*) project architect whilst Associate at John Gilbert Architects
